## PRODUCT RELEASE

### **Black Box Wins Tech & Learning “Best of ISTE” Award**

*Deluxe Charging Cart awarded for having the most impact in the classroom*

Black Box’s Deluxe Charging and Storage Carts won the *Tech & Learning* Best of Show award at the International Society for Technology in Education’s (ISTE) conference, which was held in Denver, June 26–29, 2016. The cart was one of many charging carts for e-learning devices evaluated at ISTE 2106.

Winners were rated by an anonymous panel of educator judges in areas such as quality, effectiveness, ease of use, and creative use of technology. After evaluation rounds, the judges met to select which products would have the most impact in the classroom. These products were given the prestigious Best of Show award.

“We are honored that the judges recognized the value that the Deluxe Charging Cart brings to the classroom,” said Joey Bernado, Black Box Carts Product Manager. “The Deluxe Charging Cart is the only cart a school will ever need to buy. It’s a ‘forever cart.’ Its shelves can be easily reconfigured to accommodate the latest mobile devices or IT trends.”

The cart is designed to hold e-learning devices of all sizes, from an iPad® mini to a 15” Chromebook™ laptop and other devices. The carts feature an exclusive safety-first design which keeps children from getting hurt on sharp edges and pinch points. It features rounded edges, internal electrical components, and locking doors to protect students and devices. The heavy-duty design eliminates “launch points” and ensures the cart won’t tip over during normal usage.

An overview of the Deluxe Charging Carts will be included in the August 2016 issue of *Tech & Learning*.
