

WHEN YOU NEED TO SEE THE BIG PICTURE

LEAVE THE TECH TO US

Split-second decisions demand split-second technologies. Look at the big picture and leave the tech to us. Black Box designs more than 500 control rooms a year for defense, industrial, public safety, broadcast, and other mission-critical environments.

DKM MATRIX SWITCH

RADIAN™ VIDEO WALL PROCESSOR

4SITE KVM

CONTROLBRIDGE™

VISUALIZATION & COLLABORATION

Improve situational awareness and make better decisions with real-time data display and information sharing for multi-user and multi-site workflows.

SIGNAL SWITCHING & EXTENSION

Switch, extend, and share access to remote computers, and manage video signal routing and extension to multiple displays.

REMOTE CONTROL & SHARING

Manage your control room from anywhere and share content to remote users on any device.

MULTI-SYSTEM CONTROL

Enable operators to make faster, better informed decisions with single keyboard/mouse and touch-panel control for multiple systems.

DESIGN EXPERTISE

Black Box has the expertise, support, and portfolio to put together a solution for your application.
